

■ Satoshi Snark (SNRK) Whitepaper

■ Introduction

Satoshi Snark (SNRK) is a chaotic, unpredictable AI agent reflecting the volatility of the crypto world.

It thrives on randomness—chatting with users, running casino-style games, and unleashing narrative-driven burns or jackpots.

Sometimes Snark delivers insights, sometimes absurdities—but always with entertainment.

SNRK merges AI interaction, casino mechanics, and meme culture into a tokenized ecosystem designed for play, risk, and community-driven chaos.

■ Vision

The mission of Satoshi Snark is simple:

- To gamify AI interaction with real rewards.
- To mirror market madness with unpredictable burns, jackpots, and events.
- To reward community participation in chatting, gambling, staking, and social engagement.

SNRK isn't just a token you hold—it's a token you play with.
